**THIS ISSUE HAS BEEN REVISED TO JANUARY 9, 2009 AND CANCELS AND REPLACES
ALL PREVIOUS ISSUES.**

Any inquiries as to the contents of this publication or reports of errors or omissions should be directed to the nearest regional office as indicated at the end of Part 1 of this publication.

The information in this volume is grouped in six parts:

1.	Foreword (includes Advance Notices, Legend, Frequencies listing and MCTS telephone and address information)
2.	Atlantic Coast, Gulf and St. Lawrence River to Montreal, Eastern Arctic (including Hudson Bay and Strait), Great Lakes (including St. Lawrence River to Montreal) and Lake Winnipeg
3.	Vessel Traffic Services
4.	General
5.	Environment Canada
6.	Loran-C Navigation System

Part 1 provides mariners with advance information on proposed changes to Fisheries and Oceans Canada, Canadian Coast Guard, Marine Communications and Traffic Services (MCTS) Centres. In addition, it includes the Canadian Maritime Mobile Safety and Public Correspondence Communication Frequencies, a Legend for Centre Listings, and the telephone/facsimile/telex directory of MCTS Centres along with the Regional offices' addresses.

Part 2 lists, in tabular form, detailed operational information about individual facilities in each of the areas covered. Marine Communications and Traffic Services Centres are providing continuous year round communications and special services except as noted.

Part 3 provides consolidated information concerning Vessel Traffic Services.

Part 4 gives descriptions of the various Procedures, Services and Systems available, together with general observations or directions for their use. This section also refers to radiotelephone procedures for the benefit of vessels equipped with radiotelephone but not carrying radio operators. The proper use of radio frequencies and procedures is essential to minimize congestion and delays on the channels available for communication.

Part 5 provides all relative information concerning Environment Canada's services in marine meteorology that are delivered by the Canadian Coast Guard.

Part 6 provides information, figures, tables and chartlets on the Loran-C Navigation System.

The main purpose of this publication is to present information in a convenient form on radio communications and radio navigational aids services provided in Canada by Fisheries and Oceans Canada. Also included are radio facilities of other government agencies that contribute to the safety of ships in Canadian waters.

It is published in two volumes: one for the Atlantic Coast, Gulf and St. Lawrence River to Montreal, Eastern Arctic (including Hudson Bay and Strait) the Great Lakes (including St. Lawrence River to Montreal) and Lake Winnipeg; the other for the Pacific Coast, Western Arctic and the Athabasca-Mackenzie Watershed area. Both editions are also available in French.

Issues are published in April each year. Amendments to the publication, if necessary between issues, will be made known by radio broadcasts (Notices to Shipping) and/or in section III of the monthly edition of "Notices to Mariners".

Every ship station fitted on a Canadian ship or on a non-Canadian ship engaged in the coasting trade of Canada, pursuant to the *Ship Station (Radio) Regulations 1999*, and all ships in waters under Canadian Jurisdiction, pursuant to the *Charts and Nautical Publications Regulations, 1995*, are required to carry the most recent applicable edition of Radio Aids to Marine Navigation.

TABLE OF CONTENTS

	PAGE
PART 1 - FOREWORD	
Advance Notices	1-1
Canadian Maritime Mobile Safety & Public Correspondence Communication Frequencies	1-3
General Information on MCTS Centre Listings (includes legend)	1-5
Telephone, Facsimile/Telex, Address and other Information	1-7
PART 2 – FACILITIES INFORMATION - Atlantic, Gulf and St. Lawrence River to Montreal, Eastern Arctic (including Hudson Bay and Hudson Strait), Great Lakes (including St. Lawrence River to Montreal) and Lake Winnipeg	
<u>MCTS Centres</u>	
Halifax	2-1
Iqaluit	2-4
Labrador (Goose Bay)	2-9
Les Escoumins	2-11
Montreal	2-13
Placentia	2-15
Port aux Basques	2-18
Prescott	2-21
Quebec	2-24
Rivière-au-Renard	2-26
Saint John	2-29
Sarnia	2-32
St. Anthony	2-34
St. John's	2-36
Sydney	2-38
Thunder Bay	2-41
Canal and Locks Operations	2-44
Radiotelephone VHF coverage – Great Lakes (chart)	2-46
MCTS Network: Centres and Sites - Atlantic Coast – Newfoundland region (chart)	2-47
MCTS Network: Centres and Sites - Atlantic Coast – Maritimes region (chart)	2-48
MCTS Network: Centres and Sites – Gulf and St. Lawrence River – Quebec region (chart)	2-49
MCTS Network: Centres and Sites - Hudson Bay, Strait – C&A region & Labrador – Nfld. region (chart)	2-50
MCTS Network: Centres and sites – Arctic – Central & Arctic region (chart)	2-51
Radio Beacon Stations – continuously operating	2-52
Radar Beacon (RACONS) – Atlantic coast, Gulf & St. Lawrence River to Montreal, Eastern Arctic	2-52
Radar Beacon (RACONS) – Lake Winnipeg	2-57
Radar Beacon (RACONS) – Great Lakes	2-57

TABLE OF CONTENTS

	PAGE
PART 3 – VESSEL TRAFFIC SERVICES (VTS)	
Atlantic, St. Lawrence, Great Lakes, Lake Winnipeg and Eastern Arctic	
Eastern and Arctic Canada (Responsibilities; Traffic Clearance; Communications; Zone Descriptions; Zone Application; Reports)	3-1
Atlantic Coast VTS ECAREG (chart)	3-9
Arctic Canada VTS NORDREG (chart)	3-10
<u>VTS Zones Schedules</u> – Sectors & Boundaries; Identification & Frequencies; CIPs; Charts	
Bay of Fundy	3-11
Halifax Harbour and Approaches	3-15
Northumberland Strait	3-18
Placentia Bay	3-20
Port aux Basques	3-22
St. John’s	3-24
St. Lawrence Waterway	3-26
Sarnia (includes Frequency Guard Great Lakes Basin)	3-30
Strait of Belle Isle (voluntary)	3-36
Strait of Canso & Eastern Approaches	3-38
PART 4 - GENERAL	
<u>PROCEDURES</u>	
Radiotelephone Procedures (General, Examples of procedures, Phonetic Alphabet, Times, Time zone comparison, Time signals)	4-1
Distress Communications (Early Notification of Search and Rescue Authorities of developing situations, Alarm Signal, Distress Signal/ Call/ Message/ Traffic/ Procedure)	4-4
Urgency Communications (Urgency signal/call)	4-7
Safety Communications (Safety signal/call/message)	4-7
Aids to Navigation (Positions, Reporting abnormal operation of radio aids, Radio beacons, Radar beacons (RACONS))	4-8
<u>SYSTEMS</u>	
GMDSS – Global Maritime Distress and Safety System in Canada (What is GMDSS, Why GMDSS, GMDSS sea areas, Communications between GMDSS and non-GMDSS vessels, Safety notice concerning VHF/DSC, CCG MCTS Centers, Canadian NAVTEX service) (charts)	4-9
VHF/DSC system – Radio Coverage Prediction – Atlantic Ocean (chart)	4-13
VHF/DSC system – Radio Coverage Prediction – St. Lawrence River (chart)	4-14
VHF/DSC system – Radio Coverage Prediction – Great Lakes (chart)	4-15
Transport Canada’s Requirements for GMDSS & Guidance on important operational alerting procedures	4-16
Distress Situations and Alerting of SAR Authorities	4-18
Amver – Automated Mutual-assistance Vessel Rescue system	4-25
Differential Global Positioning System (DGPS) (table & charts)	4-30
Pre-Arrival Information report (PAIR)	4-34
